

Wind Turbine Training Facility

The PTS Wind Turbine Training Facility (WTTF) is a unique open access facility based within the Port of Blyth, one of the UK's leading offshore energy support bases. Funded by the Coastal Communities Fund and coupled with new educational and recreational facilities, the WTTF offers flexibility to deliver activities such as:

Equipment Trial & Demonstration before full operation in the field

Research & Development of new, innovative technologies

Training & Development of Competent Drone Pilots

Working at Height Training in Realistic Environment

Competency checks for Rope Access Technicians before deployment

Blade repair & inspection techniques

Advanced Rescue Training

Emergency Response Simulation

Raising Awareness of the Wind Industry
